

FULL COVER AND DAMAGE COVER

Non-insurance terms for consumer and small business customers.

Full Cover and Damage Cover include a number of non-insurance benefits. The terms for each benefit are set out below. With the exception of the terms and conditions of insurance, we can change the below terms, change the charges or discounts or withdraw the products or discounts at any time. We will try to give you notice of any such changes. For consumer insurance terms please visit ee.co.uk/insuranceterms, or for the business terms, please visit ee.co.uk/businesseterms

NEXT DAY REPLACEMENT OPTION FOR FAULTY DEVICES

The terms here are for consumer customers only. Small business customers are also entitled to a next day replacement. For these terms see the Price Guide for Small Business at ee.co.uk/businesseterms

Full Cover and Damage Cover customers are entitled to a next day replacement, should your registered device be diagnosed by us with a fault. By 'fault' we mean the failure of your device due to any permanent mechanical or electrical defect requiring replacement or repair before normal operation can be resumed. If the device is lost, stolen or damaged in any way you cannot have a replacement using the next day faulty replacement service. You may be able to make a claim under any insurance policy you have. This replacement option does not remove or replace your statutory rights in any way, nor is it insurance.

For a fee, we will arrange for a courier to visit you to exchange the faulty device for a fully refurbished replacement. This fee will be added to your Airtime Plan bill. To find out the current fee, please visit ee.co.uk/excessandcharges

Apple devices are not eligible for this option during the first 12 months; you will need to contact Apple directly. We can only arrange a next day replacement for a fault that develops with an Apple device after 12 months and before 24 months. Devices older than 24-months do not qualify for this option. If you add Damage Cover or Full Cover part way through your mobile phone or tablet plan, your device will only be eligible for this option until it is 24 months old (e.g. if you add this in month 3 of your plan, you could arrange a next day replacement for that device for the next 21 months only). If you have made a successful insurance claim under your Damage Cover or Full Cover insurance and received a replacement device, the new device will be eligible for this option for the remainder of the 24 month period e.g. if your device is stolen in month 4, you will be eligible for a next day replacement of the replaced device for 20 months, taking you to 24 months in total. Next day faulty replacements are not available for any customer on a SIM only plan.

The replacement device will be of the same or similar specification, but it may be a different make or model and have an alternative operating system. The replacement will be from refurbished stock that has been tested and is fully functional. It will come with a warranty from EE for either the time period of what's left of the manufacturer's warranty, from the original device, or 30-day warranty, whichever is the longer. The replacement device will still be insured until your cover ends.

To arrange a replacement, you will need to call us on 150 from your EE phone, or 07953 966 150 from any other phone. We will complete some diagnostics over the phone to confirm if you are eligible for a replacement and process the next day replacement. If we don't have your device in stock and can't agree a suitable replacement we won't be able to deliver the replacement within the timescales.

We will not make a delivery on UK Bank Holidays or in exceptional circumstances, for example: public events, festivals and weather events where road, rail and air transport is disrupted. We only deliver replacement devices to your billing address within the United Kingdom.

You'll need to complete the following before the courier arrives to replace the faulty device:

- Back up any content you want to transfer to your new device
- Delete all content from the faulty device and deactivate location finder software on the device, for example, Find My iPhone

- Remove any security features such as PIN, passcode and fingerprint locks, or any software applications that stop us from accessing your device in order to return it to its original factory settings and recycle it.
- Remove the SIM card as you will need to put this in the replacement device we may charge for the cost of the replacement device if you have not completed all of the actions listed above.

We may charge you for the cost of a failed delivery if you are not available to accept the replacement on the day and at the time agreed; or if you do not have the device ready for exchange. For details of these charges visit ee.co.uk/excessandcharges

The courier will take the faulty device away. If we have collected and replaced your device, then discover the old device was not faulty (e.g. if it has been damaged) we may charge you for the cost of the replacement device and may remove the EE insurance product from your Airtime Plan.

MULTI POLICY DISCOUNT

If you are a small business customer and take out more than one Full Cover, Full Cover with AppleCare Services or Damage Cover or Damage Cover with AppleCare Services products you will get a discount on each product you take out. Each policy must be in your name, or in the name of your business for devices on your EE small business account. The discount will not apply if the insurance policy is for someone else. The discount you get will depend on the number of EE insurance products you take out. Your discount can go up and down depending on the number of products on your account each month:

- 2-9 products: 10% discount on each
- 10-19 products: 15% discount on each
- 20+ products: 20% discount on each

Discounts do not apply to your excess fee or any other fees related to insurance. You do not need to take all EE insurance products out at the same time to get the discount. The discount will be calculated monthly based on the number of eligible products on your account by 10pm on the day your bill is run and then applied to that Airtime Plan bill.
