This Price Guide and the terms and conditions in this document only apply to Customers who have been notified that they are moving to the Business Pay As You Use tariff. For all other tariffs, please refer to relevant price guides at www.ee.co.uk/business/terms

This is a Pay As You Use tariff and is not eligible for any Value-Added Service Add Ons

References in this Price Guide to the “Tariff Notice” are to the notice sent to eligible Customers from October 2025 informing them of the change in the billing platform and their Service Plan.

Any applicable Solution Terms will take precedence over the other terms of this Price Guide in accordance with clause 1.1 of the General Terms and Conditions for Business Customers.

The information in here was correct at the time of publication. We will keep it up to date and will notify you of any changes where the terms of our Agreement with you would require us to do so. Don't forget that if you do have any questions, you can call us on 158 from an EE mobile or 0800 079 3333 from any other phone.

Please see Section 3 (Terms and Conditions) for general rules applicable to the Business Pay As You Use Tariff details of the fair usage policies which apply.

EE Limited is part of BT Group PLC, with registered offices at 1 Braham Street, London, E1 8EE

A Note about Roaming

Business Pay As You Use Tariff will allow users to use their UK pricing structure (voice, SMS, and data) when Roaming in Europe Zone at no additional cost, Roam Like At Home (“RLAH”). Please note, inter-zone calls (Calls and SMS destined to a zone other than the one you are in) are not included within the scope of RLAH and are charged at standard roaming rates. In addition, to be eligible for RLAH, connections must not be used for permanent roaming and must satisfy specific criteria. Please see Section 1 of this Price Guide for further details.

Additionally, any UK fair usage terms associated with UK service plans in respect to voice, data or SMS will also be applicable whilst roaming in Europe Zone of the EE Business Zones.

Section 1

Standard Business Charges

Standard Business Charges (UK)

Standard UK Call Charges

Usage Type	Price
Calls to UK Mobiles (07)	10p per minute
Calls to landlines (01/02/03)	10p per minute

Zone-B	Free	£0.30	£0.50
Zone-C	Free	£0.30	£0.50

Standard Data Charges (per MB)

Zone	Using data per MB
Europe Zone	0.97p per MB
Zone-A	£1.00
Zone-B	£1.00
Zone-C	£1.00

Roam like at Home Surcharges

If a User breaches a fair use policy while using Roaming in our EE Europe Zone or if it appears a Connection is being used abroad for more than 2 months out of any 4-month period EE may ask the User to stop Roaming. If Roaming continues, EE may apply a surcharge to that User's Roaming data usage of £6.51/GB of data usage, 0.8p / Text Messages and 2.7p / minute for voice calls made and 0.9p / minute for voice calls received. This surcharge will be in addition to the usual Service Plan or Service Plan Add- On Charges.

EE Business Zones

We've grouped countries into simple Zones so it's easy to work out how much International direct dial and roaming calls will cost.

Zone Name	Countries Included
Europe Zone	Republic of Ireland, Guernsey, Isle of Man, Jersey Austria, Belgium, Bulgaria, Canary Islands, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland (inc. Aland Islands), France, Germany, Gibraltar, Greece, Hungary, Iceland, Italy (inc. Vatican City), Latvia Liechtenstein, Lithuania, Luxembourg, Malta, Monaco, Netherlands, Norway, Poland, Portugal (inc. Azores and Madeira), Romania, San Marino, Spain (inc. Canary Islands, Ceuta and Melilla), Slovakia, Slovenia, Sweden, Switzerland,
Zone-A	USA, Canada, South Africa, New Zealand, Turkey, China (excludes Macau), Hong Kong and Australia

Zone-C	All other countries

Bill Protector – All Data & Roaming Data

Bill Protector

Bill Protector is an optional product for users and can be used by some, all or none of the connections within an account

There are two types of Bill Protector that give different levels of protection to the customer

- (a) Bill Protector All Data, this product allows the customer to set a single user spend and usage limit on any data usage or overage charges anywhere, at home or abroad. Monthly Caps can be set at: **£0, £10, £20, £30, £40, £50, £100, £250, £500 and £1000**
- (b) Bill Protector Roaming, this product allows the customer to set a single user spend and usage limit on any data usage or overage charges incurred when Roaming in EE Business Zones A, B and C. Data charges incurred in the UK or Europe Zone do not count towards the monthly limit. Monthly Caps can be set at: **£0, £10, £20, £30, £40, £50, £100, £250, £500 and £1000**

Customers can have a mix of the two types of Bill Protector applied to different connections but, cannot apply both types to the same connection. Bill Protector can be added to connections at any point in the Agreement, you can also request for it to take effect at the start of the following billing cycle. Bill Protector can be removed from connections at any point in the contract. The Bill Protector value can be amended at any point in the contract; you can increase a cap immediately, but any reduction in a cap limit will take effect at the start of the following billing cycle.

When a connection approaches 80% of its Bill Protector spend limit, an SMS notification will be sent to the User. When a connection reaches the Bill Protector spend limit (100%), an SMS notification will be sent to the User and a data bar will be placed on the connection.

Data bars will be automatically removed at the start of the following billing period, at which time any data allowances are reset. It is also possible for a Customer admin to request the bar be lifted early. If the bar is lifted, any subsequent data used that billing month will be charged at the standard data out-of-bundle rate found in Section 1A of the Price Guide.

Please Note: The Daily Roamer daily fee will not count towards your Bill Protector cap.

WiFi Calling

Service

With Wi-Fi Calling, Users with a compatible Device can make and receive calls and send and receive Text Messages in the UK over compatible Wi-Fi networks, as if they were connected to the EE mobile network. All calls made or texts sent using WiFi Calling will be charged as per the EE Service Plan set out in the Customer's Agreement with EE (including the Tariff Notice) or in this EE Price Guide. Calls and Text Messages will appear as normal in the Customer's itemised bill.

EE firmware must be installed on a compatible Device for Wi-Fi Calling to be enabled. Devices originally purchased from other operators and some indirect resellers (even where the Device is listed as WiFi Calling compatible) may not work with EE's WiFi Calling solution. Eligible Customers will have the WiFi Calling add-on automatically applied, or can request WiFi Calling be added at no additional cost.

Requirements

- To be eligible for WiFi Calling the Customer must have a compatible EE Device with up-to-date software, a 4GEE data bundle, and a voice service plan.
- Users will see a WiFi Calling icon on the phone when WiFi Calling is ready to use. WiFi Calling will then work when Users are connected to a suitable WiFi network. The Wi-Fi connection process and behaviour of Wi-Fi Calling will depend on the Device. Some Devices may only use WiFi Calling if you have no signal at all on the EE mobile network. The Customer should check the specifications of its Devices.
- The Customer shall ensure its Users are using any WiFi network in line with its terms and conditions. Users may be charged by the WiFi provider for access to the WiFi network.

Restrictions

- EE cannot accept any responsibility for the quality, security, availability, internet connection or coverage of WiFi networks and any calls made or received over them.
- EE cannot guarantee that all services will behave in exactly the same way when a User is connected to Wi-Fi Calling as they do on the mobile network.
- A Wi-Fi call requires approximately 50Kbps of bandwidth, but a minimum internet speed of 2Mbps is recommended.
- EE cannot recommend Wi-Fi Calling as a solution for large offices and any such use shall be at the Customer's sole risk and responsibility to configure and support the network, bandwidth, quality, handover between multiple access points and firewall configuration. EE cannot accept any responsibility for any impact to networks over which Wi-Fi Calling is permitted.
- WiFi Calling is not compatible with EE Freedom, Call Safe, Smartnumbers or Pocket Landline. These products must be disabled on Connections before WiFi Calling can be activated.
- If a User leaves the WiFi network during a WiFi call the call may stop and the User will have to redial when coverage becomes available (either on the Network or back over WiFi) to continue the call. If a User makes a call over the Network and loses coverage, the Users must connect to Wi-Fi Calling before redialling. For the purposes of EE's statistics these do not count as dropped calls.
- WiFi Calling is not permitted whilst roaming.
- If you make calls over WiFi to local landlines and mobile numbers whilst abroad you will be charged our standard international rates and this will be treated as a call from the UK to an international number. To avoid these charges turn off WiFi calling in your phone settings.

Emergency Services: When using WiFi Calling Users will be able to call the emergency services (on 999) but they will not be able to identify a User's location. Users should therefore keep a fixed line phone to use for calls to emergency services and use WiFi Calling only as an absolute last resort.

Section 2

Daily Roamer

Daily Roamer

As per Roam Like at Home, usage in our EE Business Europe Zone will charge standard UK call rates. For a full list of EE Business Europe Zone countries see the ‘Standard Business Charges (Roaming) section 1’. Daily Roamer provides access to the UK domestic rates when in Zone-A and Zone-B.

Allowance	Daily Charges
Access to the standard UK call charges for minutes, text messages and data when roaming in the EE Business Zone A	£4 per day
Access to the standard UK call charges for minutes, text messages and data when roaming in the EE Business Zone B	£7 per day

*See Section 3– Allowance and Fair Usage for more details

Zone Name	Countries Included
Zone-A	USA, Canada, South Africa, New Zealand, Turkey, China (excludes Macau), Hong Kong and Australia
Zone-B	Aruba, Albania, Andorra, Anguilla, Antigua & Barbuda, Argentina, Armenia, Bahamas, Bangladesh, Barbados, Brazil, British Virgin Islands, Cayman Islands, Chile, Costa Rica, Dominica, Dominican Republic, Ecuador, Egypt, Georgia, Grenada, Haiti, India, Indonesia, Israel, Ivory Coast, Jamaica, Japan, Jordan, Kuwait, Macedonia, Madagascar, Malaysia, Mexico, Moldova, Montenegro, Nicaragua, Peru, Puerto Rico, Philippines, Qatar, Russia, Saint Kitts And Nevis, Saint Lucia, Saint Vincent And Grenadines, Saudi Arabia, Serbia, Singapore, South Korea, Sri Lanka, Taiwan, Thailand, Trinidad And Tobago, Turks And Caicos Islands, Uruguay, United Arab Emirates, US Virgin Islands, Vietnam

Triggering charges
Charges only apply on days that the User accesses voice, message or data services whilst roaming. No charge applies when the User does not roam or use these services whilst roaming. A day begins at 00:00:00 hours and ends at 23:59:59 hours, using local time and date. Each session of data roaming is rounded up to the nearest kilobyte.
Usage Charges in EE Business Zone A
When roaming in the EE Business Zone A calls and text messages to mobile and standard landlines in the UK or, to EE Business Zone A will be charged at the standard UK call rates as set out in Section 1. Incoming calls and Text Messages will not be charged. Calls to EE Business Zones B and C will be charged at £1.00/min. Text messages to EE Business Zones B and C will be charged at 30p each. When roaming in EE Business Zone A data used will be charged at the standard UK Domestic rate of 0.97p per MB
Usage Charges in EE Business Zone B
When roaming in EE Business Zone B calls and text messages to mobile and standard landlines in the UK or, to EE Business Zone B will be charged at the standard UK call rates as set out in Section 1. Incoming calls and text messages will not be charged. Calls to EE Business Zones A and C will be charged at £1.20/min. Text messages to EE Business Zones A and C will be charged at 50p each. When roaming in EE Business Zone B data used will be charged at the will be charged at the standard UK Domestic rate of 0.97p per MB
Usage Charges in EE Business Zone C
EE will charge for any minutes used in EE Business Zone C at £1.50/Min. EE will charge for any text messages used in EE Business Zone C £0.30/SMS. EE will charge for any data roaming used in EE Business Zone C at £1.00/MB

Daily Roamer continued

Caps and Alerts

The Customer acknowledges that by selecting Daily Roamer its Users will be automatically opted out of the warning messages and roaming limits specified in Articles 14 and 15 of Regulation (EU) No531/2012. This is to ensure that Users receive the full benefits of Daily Roamer.

Buffers

In both EE Business Zones A and B, the Daily Bundle Charge will be triggered by the following; making a call 30 seconds or longer, receiving a call 60 seconds or longer, 1 SMS or 100KB of data usage in any given data session.

Future Changes

EE may change the countries that make up EE Business Zones A and B at any time. The Customer will be notified in writing by letter 30 days prior to any change.

Section 3

Terms and Conditions

Copy Invoicing

What's included?

Any request by a customer to reproduce and send them a copy of an airtime or hardware invoice.

Charges

£10 per invoice (Exclusive of VAT)

Premium Service Delivery

What's included

Premium Service Delivery Customers can order new and upgraded devices to be delivered on a specific day, within a specific time period and can specify an alternative address for delivery of Devices.

Home Delivery	Orders for new and Upgraded Devices will be delivered to a specified User's home address rather than the contracted address.
By 10:00 Service	Orders for new and Upgraded Devices will be delivered to the Customer's contracted address, or the nominated User address, before 10.30 am on the next/chosen day*.
By Noon Service	Orders for new and Upgraded Devices will be delivered to the Customer's contracted address, or the nominated User address, before 12.00 noon on the next/chosen day*.

*Orders for next day delivery must be placed before 5pm on the previous working day.

Charge

There will be a one-off charge per 5 items delivered

Delivery Times	Delivery Charges
Home Delivery to a User's address	£5.00
Monday - Friday before 10:00am	£15.00
Monday – Friday before 12pm	£10.00

Extra Terms and Conditions

1. Geographical exceptions apply (see Table A on next page).
2. All orders are subject to stock supply and availability.
3. Orders for next day delivery must be placed before 1pm on the previous working day.
4. Up to 5 items can be included in one package, any more than 5 items will incur additional charges. There is no limit to the number of items that can be ordered per delivery.
5. Accessories can be included when accompanied by a Device order.
6. Premium Service is not available for replacement orders under a warranty claim.
7. Where a customer pays to specify the delivery time, they can also include delivery to a User's home address, there will not be an extra £5 charge.

Fault Cover for Large Businesses

Service	Charge per Device
Fault Cover for EE Large Business	Inclusive for Eligible Devices
<p>What's included</p> <p>Eligible Devices that are Faulty benefit from a next day* replacement service for 24 months.</p> <p>* If claim accepted before 8:00pm. Geographical limitations and exceptional circumstances apply. See previous page.</p> <p>Terms and conditions</p> <p>Full terms and condition apply, see from page 43</p>	

Drone Usage

Unless explicitly stated otherwise in your terms, EE SIMs should not be used in airborne drones.

eSIM Deployment

Where the Customer wishes to download an eSIM profile remotely to a Device the Customer must provide EE with the relevant and accurate equipment identifier number ("EID") . EE shall bear no liability for an inaccurate EID provided by the Customer which results in disruption to the Services.

Fair Usage

Use Outside of Notified Limits

Certain Services are subject to a fair use policy and/or limits on usage, including use within a specified period of time. If your use of the Services exceeds any limits on usage and/or any fair use policy notified to you from time to time, in order to protect the Network for other users, EE reserves the right (ii) to reduce your access to such services,

EE has no obligation to monitor your use of the Services to ensure that you do not exceed the fair use policies or any applicable limits. EE may additionally manage customers' bandwidth at peak times to preserve the best experience for the greatest number of users.

How we measure data usage

We measure how much data you use in kilobytes (KB). Data is based on the following units:

- 1024 bytes = 1 Kilobyte (KB) (equivalent to reading 2/3 paragraphs of text)
- 1024 KB = 1 Megabyte (MB) (equivalent to about one hour of instant messaging)
- 1024 MB = 1 Gigabyte (GB) (equivalent to about five hours of watching YouTube)

Data usage is all the data that's been sent or received. Upstream is where data is transferred from your mobile to the internet (uploading). Whereas downstream is from the internet to your mobile (downloading).

We calculate your data usage based on the amount of data that travels over our network both upstream and downstream, which may be different from the data your device consumes.

Your data usage will also include additional data packets which control the flow of data over the network and may also include data packets which have to be re-sent over the network, for example if you're in an area with poor coverage and your connection drops off.

When content providers state the file size of their content, it may take up a little bit more of your data to download that file. This is because of encryption and addressing data which can be up to 10 per cent of the total file size. For instance, if an image is said to be 100MB, it may take up to 110MB of data to download that file to your device.

General Terms and Conditions

1. Agreement

Business Customers	<p>All offers in this Price Guide are available to Business Customers only if they have been sent the Tariff Notice. Business Customers are EE customers who can provide the following:</p> <ul style="list-style-type: none"> Limited companies: the company registration number and the VAT number Charities: the charity number All other businesses: a copy of a business chequebook, plus an invoice on company headed paper or a business utility bill <p>For details of all Consumer plans please see www.ee.co.uk</p>
Traffic Management	<p>In certain circumstances, such as periods of high demand, EE may manage network performance by undertaking traffic management activities such as mobile line speed reductions.</p> <p>More information on EE's traffic management activities is set out in the 'Large Business – Traffic Management – Key Facts Indicator' document which can be found under the 'Other Terms' tab at the following link https://ee.co.uk/business/small/help/terms-and-conditions/business-terms-and-conditions/.</p>

2. Termination Charges

Termination Charges	Termination Charges will be as set out in your Agreement with EE.
----------------------------	---

3. Orders and Changes

Acceptance	EE is entitled to accept or reject new orders and change requests and to conduct additional credit checks. Certain Services can only be added, changed or removed by the authorised account holder
-------------------	--

4. Roaming

Roaming Services	Roaming services are subject to connection to foreign networks and the availability, quality and coverage of Roaming services cannot be guaranteed.
Roam Like at Home	Roam Like at Home services are not intended for permanent Roaming. The Customer shall not use or permit the use of any Connections for permanent Roaming. Users must have permanent and stable links with the United Kingdom to benefit from a service plan. This means that Users must spend a total of 2 months or more during any 4 month period within the UK. If a User's usage in EE Europe Zone suggests permanent roaming is taking place after a two week period after being alerted by SMS, EE may charge a surcharge for further use. The Customer may dispute EE's determination that a Connection is permanently Roaming by contacting customer services and submitting evidence of a User's permanent and stable links with the United Kingdom.
Billing	<p>In addition to requiring stable links with the United Kingdom, use of certain Service Plans with unlimited allowances may be subject to a fair use policy. If a User exceeds the fair use policy for a Service Plan, EE may contact the User by SMS advising that the fair use policy has been exceeded and that Charges will apply for any further Roaming use within the EE Europe Zone during the then current billing period. Fair use policies and surcharges for individual Service Plans will be set out in the Price Guide where relevant. If you have any concerns about EE's FUP policy, please call your account manager or customer service to discuss.</p> <p>Charges incurred whilst Roaming may be billed several months in arrears. Where voice or data Roaming is inclusive in a Service Plan or Service Plan Add-On, Roaming used and processed in time to appear on your bill for the corresponding month will be shown as decremented from that month's allocation. Inclusive roaming which is processed too late to appear in the bill for that month will be shown as free of charge in the bill in which that usage ultimately appears.</p>
Automatic Updating and Downloads	Tablets and netbooks have the facility to use large amounts of data compared to other types of device and may also be subject to functions and applications that operate automatic updates and downloads. You acknowledge and accept that activating roaming on your tablet or netbook may result in automatic usage at Roaming rates and in downloading applications you will be liable for any associated data charges including Roaming charges incurred when such applications are automatically updated. You can advise EE at the point of activating roaming if you would like this automatic update facility to be switched off. If you have an iPad you must ensure that it uses software IOS4.2 (or any subsequent update) in order to receive EU regulatory messages concerning Roaming

5. Billing

Rounding	All call charges will be rounded to the nearest hundredth of a penny. Total amounts on your bill are rounded to two decimal places, with the exception of Custom Caller where total amounts are rounded to three decimal places so the value may be a penny higher or lower but always in the favour of the Customer.
Itemised billing	All Service Plans come as standard with free online itemised billing. Paper itemised billing can be requested and will be chargeable.

6. RCS

If the Customer uses an Apple device EE will provide the Customer with the ability to use RCS chats, which is an add-on provided by EE's third party technology provider. By using RCS chats the Customer agrees that its device and its contacts' devices may occasionally be checked for RCS capabilities to ensure they can receive RCS chats.

The Customer may incur data charges in connection with the use of RCS chats. EE will provision and deactivate the RCS service on behalf of its third party technology provider through the messaging application for the Customer's operating system, and when the Customer's Agreement with EE ends EE will no longer provide access to RCS. To the extent that RCS chats fall within the definition of a user-to-user service under the Online Safety Act 2023 ("OSA"), EE provides an access facility to the user-to-user service provided by its third party technology provider and does not access RCS content.

EE cannot investigate or respond to complaints about RCS content under the OSA, but if the Customer wishes to deactivate the service in response to such content please contact abuse@ee.co.uk.

Fault Cover for EE Large Business

Version 2.0 (19 October 2020)

These terms shall only apply to Eligible Devices provided by EE to new Customers or Customers that have re-signed with EE after 3rd December 2014. For new Devices provided by EE to Customers with agreements that pre-date 3rd December 2014 and which were eligible for the Faulty Replacement Service(FRS), FRS shall continue to apply. From 19 October 2020 these terms may also apply to Eligible Devices leased by a Customer where it is specifically set out in the Agreement that Fault Cover applies.

1. What is it?

Fault Cover for EE Large Business (the “Service”) provides cover for eligible Devices that are Faulty. For the purposes of the Service Faulty means:

- that the Device has developed a fault and does not operate in accordance with its normal specification or operating instructions; and
- such fault is caused by faulty materials or workmanship; and
- such fault (or the cause of such fault) is not otherwise excluded under the terms of this Service.

If the Device is agreed to be Faulty, EE will (at its option) repair or replace it at no charge.

The Service is additional to, and does not affect, the legal rights that the Customer may have under the general law against the retailer of the Device (which may or may not be EE) or under any separate warranty offered by the manufacturer of the Device.

2. Eligible Devices

The Service is only available to EE Branded Devices and Qualifying Non- Branded Devices provided to EE Large Business Customers under the Customer’s Agreement.

The Service does not cover:

- Device accessories which are not integral to or connected to the Device such as wrist straps, carry cases or styluses (These may be covered by the manufacturer’s warranty, if any);
- Dongles and Data cards (These may be covered by the manufacturer’s warranty, if any);
- batteries which are more than 6 months old;
- the Device for loss, theft or damage. EE has other products which may be available to the Customer to cover these events.
- Business Smart Watch Devices

The Service is not available:

- to Devices on Consumer service plans; or
- on SIM only connections; or
- to Customers on PAYG agreements; or
- to Devices on any Service Plan that expressly excludes the Service; or
- to Devices that expressly exclude the Service.

These terms and conditions do not cover network services. Network service is subject to the Customer’s Agreement.

3. Service Period

The Service is available on all eligible Devices provided by EE during the period that the services are provided. For connected Devices, the Service shall apply to each individual Device when EE Connects the Customer's new Device on the Network. For non-Connected Devices, the Service shall apply to each individual Device from the date of delivery by EE to the Customer.

The Service will end if:

- the Agreement under which the Device(s) is provided is terminated or
- the Customer is in breach of its Agreement; or
- any undisputed Charge is not paid when due under the Customer's Agreement.

This Service shall be void if the Customer or anyone acting on the Customer's behalf makes any false or fraudulent claim or supports a claim by providing false or fraudulent documentation, device or statements and the Customer will forfeit all rights under the Service and all cover will cease.

The Service will end for an individual Device when one or more of the events occur:

- the Device is Disconnected from the Network; or
- the Device is suspended or terminated for any reason; or
- 24 months after the Device was first Connected to the Network; or
- the Device no longer meets the Service eligibility criteria; for example the Service Plan is changed to a Consumer Service Plan.

Once the Service expires or ends, it cannot be extended or re-started. The Service is non-transferable

EXCEPT:

- where the Customer re-signs with EE on a new Agreement. In such an event Devices that are transferred from the current Customer's Agreement onto the Customer's new Agreement will continue to benefit from this Service for the remainder of their 24 month period from first Connection to the Network (for Connected Devices), from the date of delivery by EE to the Customer (for non-Connected Devices) or the term of the new Agreement whichever is the shorter or the term of the new Agreement whichever is the shorter period
- In the event that a Device is novated or transferred out of the Customer's Agreement to another EE customer, EE may allow, at its option, for the Service to continue for the Device.

4. Exclusions and Limitations

EE will repair or replace a Faulty Device provided that:

- the Device has been used in accordance with the manufacturer's operating instructions and any operating instructions issued by EE; and
- all repairs have been/are arranged by EE; and
- the Customer complies with these terms and conditions and its Agreement; and
- the Device meets the eligibility requirements of this Service.

The Service cannot be bought as a separate service from EE. The Service is subject to these terms and conditions. The terms of the Service may be varied after EE has given the Customer 30 days' notice.

In respect of this Service, non-Connected Devices are not available from our indirect partners/resellers.

The Device will not be repaired or replaced where there is a fault or defect caused by or consists of:

- normal wear and tear, rusting, oxidisation or other deterioration due to normal use, exposure, atmospheric or climatic conditions (wear and tear);
- something specifically excluded under the terms of the manufacturer's guarantee or warranty for the Device of which is the subject of a manufacturer's recall of faulty products (manufacturer's guarantee or warranty exclusion).
- breakdown or interruption of the network service (network service);
- damage during any testing, repairing, adjusting, servicing or maintenance operation caused by improper or unauthorised repair, maintenance or modification (unauthorised maintenance or faulty workmanship);
- damage which does not impair the normal functions of the Device (cosmetic damage);
- disregard of the manufacturer's instructions for operation and care of the Device (manufacturer's instructions);
- anything that EE has stated to the Customer is a limitation of the specific Device (EE Device - specific limitation).

The service does not cover the Customer for loss of use or consequential loss of any kind (for example loss of business/unauthorised calls).

5. Repairs & return of Device to EE

If a Device develops a fault that the Customer considers qualifies it as Faulty under this Service, the Customer shall contact EE on the number given to them when the original order was placed. EE will carry out an initial over-the-phone diagnosis and if the Device appears Faulty, EE will arrange to provide a replacement Device and/or collect the Device for repair or examination. EE may at its discretion require the Customer to return the original Device for examination before a repair or replacement is authorised or issued.

The Service includes the cost of delivery of a replacement Device. The Service does not include the cost of failed deliveries, for example, where the Customer is not available to accept a replacement Device at a pre agreed time and place or if the faulty Device is not available for collection.

EE reserves the right to charge the Customer for failed deliveries. The current Charge is detailed in this Large Business Price Guide under Additional Charges in Section 1.

Where the Claim was received and agreed before 8:00pm, EE will endeavour to provide a replacement Device and/or collect the Faulty Device for repair or examination next day except for:

- deliveries to Northern Ireland, Isle of Lewis, Inverness, Paisley, Isle of Arran, Orkney Isles, Hebrides, Perthshire, Isles of Scilly, Shetland Isles and Isle of Wight*; and
- UK Bank Holidays and exceptional circumstances for example: public events, festivals and weather events where road, rail and air transport is disrupted.

The next day service is also subject to delivery slot availability. Deliveries may be made any time between 7am and 10 pm on the next day. Specific timeslots/appointments are not available.

*These geographical limitations are subject to change from time to time. Such changes shall be notified in this Large Business Price Guide www.ee.co.uk/business/terms

Where a replacement has been supplied the original Device is EE's property and must be returned to EE – if the Customer fails to do so then the Customer will be charged the list price for the replacement.

The Customer should retain any removable memory cards that are used in the Device. Content, software and data on the Device may be lost as a result of repairs or replacement under the Service. The Customer must ensure that it has made backups of such content, software and data that it does not wish to lose. EE is not liable for any such losses. The Customer must also ensure that any security software installed on the original Device is removed and that the Device is returned in a state where EE can fully access the Device (hardware and software) and refurbish or repair it.

The Customer may be charged the List Price for any returned Device which is found to be damaged rather than Faulty.

Replacement of any Device will only be made with an EE product and may be from refurbished stock that has been tested and is fully functional. A replacement Device may be a different make or model to that sent for repair and may have an alternative operating system, provided that such a replacement will be (in EE's reasonable opinion) of the same or similar specification.

Replacements will normally only be made of that part of the Device which is Faulty so if the handset were Faulty the Customer would be provided with a replacement handset but should retain the original battery, charger and SIM.

In the event of a claim the Customer is only entitled to repair or replacement (at the option of EE) of the Device. There is no entitlement to any refund or compensation.

The replacement Device will benefit from the Service for the remainder of the 24 month period of the original Device

6. In Life Changes

If the Customer makes any changes to their account which results in the Device becoming ineligible for the Service then the Service will cease from the point at which the Device became ineligible.

If the Customer changes the Device it is the Customer's responsibility to check that the new Device can be covered by the Fault Cover.

7. Upgrading

If the Customer Upgrades the Device, the old Device will no longer be covered by the Service from the point of Upgrade. The Upgraded Device will benefit from any Fault Cover or similar service, if any, current at the time of the Upgrade for which it meets the eligibility criteria.

8. Interpretation and Definitions

Where the context permits any defined term in this document shall have the same meaning as in the Customer's Agreement with EE.

In this Service Plan:

Agreement means the EE Business Agreement;

Device means a mobile telephone or other device approved by EE consisting of a handset (including a handset that is leased by the Customer after 19 October 2020 and only where agreed by EE), standard battery, travel charger, SIM (if applicable) and where part of a standard package the memory card and other equipment and which is either an EE Branded Device or a Qualifying Non-Branded Device. For the purposes of this Service the term Device shall also include tablets

EE Branded Device means a Device that is branded with the EE logo.

Qualifying Non-Branded Device means a Device that does not carry the EE logo, but which has been supplied to the Customer by EE and EE has designated the handset model as being eligible for the Service

Changes Annex

This annex highlights any updates made to the EE Business Price Guide from 09.03.26 onwards
